

Testimonial of Glenna Stemen

As a "senior" patient, wearing braces on my teeth when I passed my 70th birthday, I was amazed that Dr. Mike was able to correct my bite and create a beautiful smile for me through use of the braces and subsequent application of crowns. I believe that no one is too old to benefit from Dr. Mike's corrective dental intervention. I am so pleased with my results, and I cannot compliment the doctor highly enough for his expertise in cosmetic dentistry.
