

FIROUZIAN

DENTISTRY

We know that many of our patients have been eager to return to normal life and follow through with treatment that was deemed "elective" for a time. We are happy to report that, on May 4, we plan to resume routine dental care, complex treatment, and hygiene visits.

Our patients' safety and health is our highest priority at Firouzian Dentistry. We will adhere to the strict infection control guidelines given by the Centers for Disease Control (CDC) to protect people from COVID-19 and other germs and viruses. Our measures include:

- Prescreening all of our patients prior to arriving at our office. We will be sending wellness forms that must be completed prior to entering our office. We will ask patients to wait in the parking lot prior to office entry and will ask them to come in once the operatory is ready for their entrance. We will also checking temperatures and respiratory conditions upon your visit.
- Rescheduling any patient with a fever, recent travel or respiratory illness will be necessary for their protection and the protection of our team.
- Use of N95 masks and expanded personal protective equipment for all patients will be a necessary protocol.
- Patient appointment time and room spacing to adhere to social distancing requirements
- Universal Disinfection and precautions have always been a necessary protocol of all areas of the office between patient visits
- Complete instrument sterilization as usual.
- Patient pre-rinse prior to seating for dental services.
- Visitor-free waiting room

Additionally, we have invested in [Surgically Clean Air](#), in the interest of protecting ourselves and ever patient and person that enters our offices as it is the only method warranting that our air is of the quality that will be safe for our health as we move to this new time that has many concerns for the future.

I hope you are all doing well and staying safe during this COVID-19 pandemic. It's hard to believe how quickly our world has changed.

As always, we will also try our best to make any additional accommodations to make our patients feel safe and comfortable. We look forward to seeing you soon. If you have a need before May 4, we are continuing to see our patients on an emergent and urgent basis. Don't hesitate to call (614) 848-5001. We are currently booking appointments for May 4 and beyond for continuation of existing treatment as well as beginning new treatment.

Sincerely,

Dr. F Michael Firouzian, DDS, FAGD

P.S. We expect the first couple of weeks to fill quickly, so please call right away to schedule. Our number is (614) 848-5001.
